**STEWART E. McLEAN**  
Minister of Transportation

**Manitoba**  
1969

Manitoba has about 3,900 miles of Provincial Trunk Highways and 7,400 miles of all-weather Provincial Roads. The highway and provincial road systems each have distinctive markers to help you as you drive.

Manitoba is a land of contrasts. The broad, rolling plains and river valleys of the south give way to the parklands, which blend into the forests of the north. Oil wells and skyscrapers have joined the grain elevators on Manitoba's expanding horizon. Provincial Parks will be found bordering urban areas, offering tree-fringed beaches and rocky shorelines, and stretching through miles of forest and lake in the north.

Manitoba's road system makes "wonderful Manitoba" easily accessible to Manitoba citizens and our visitors. Use it well and often.

THE CANADIAN GALLON  
Note that the United States and the Canadian gallon measures are not the same.  
The Canadian gallon is based on the imperial quart, which is one-fifth longer than the United States quart. (5 Canadian gallons = 6 United States gallons)
