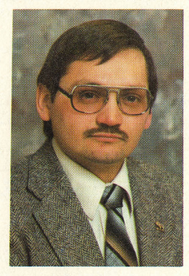
OFFICIAL HIGHWAY MAP 1981 - 1982



Manitoba has much to offer the travelling public and we are happy to provide this new road map to help guide you to the province's colorful urban and rural centres and to our many splendid recreational areas and points of interest.

Thousands of visitors will be attracted to Brandon, our second largest city, to help celebrate its Centennial in 1982 at a year-long series of lively, fun-filled events. The Brier in March and the Brandon Centennial Air Show, featuring the precision-flying "Snowbirds," are only two of the major events being planned. Appropriately, the map's front page, showing the First Street entrance to Brandon, is in tribute to this city's 100th birthday.

You will find in Manitoba 6,500 kilometres of Provincial Trunk Highways and 12,325 km of Provincial Roads providing easy access to almost all parts of the province. Close to 570 km of the trunk highways are now four-laned for added safety and convenience.

We are proud of our record of continuous improvement, upgrading and strengthening of our road system, aimed at enhancing recreational, social and commercial communication…whether it is the farmer moving his grain, the sportsman bent on hunting or fishing, or the casual holidayer in search of diversions, restful respite or the excitement of a myriad of colorful, lively festivals.

This road map is a key to happy motoring in Manitoba. We hope you enjoy using it. And please buckle up and drive safely!

DONALD ORCHARD
Minister of Highways
and Transportation.

THE CANADIAN GALLON

Note that the United States and the Canadian gasoline measures **are not** the same.

The Canadian gallon is based on the imperial quart, which is one-fifth larger than the United States quart. (5 Canadian gallons = 6 United States gallons, 1 U.S. fluid ounce = 1.04082 imperial fluid ounce).
